REGION I

1 CONGRESS STREET, SUITE 1100, BOSTON, MASSACHUSETTS 02114-2023

MEMORANDUM

DATE: July 2, 2002

SUBJ: Willow Brook/Willow Pond Remediation Project, East Hartford, CT

FROM: Kimberly Tisa, PCB Coordinator *K. Tisa*
Pesticides, Toxics, and Urban Program Unit

TO: Juan Perez, Project Manager
RCRA Corrective Action

*Pratt & Whitney Man SE
CTD 9906 72 081
R-9
RDMS # 100254*

I have reviewed the June 27, 2002 request by Pratt & Whitney (P&W) to modify its remedial action work plan. The modification focused on the decontamination of 207 steel sheet piles which were used to form the northern embankment of the temporary bypass channel during remediation of PCB-contaminated soils and sediments. This request was submitted on behalf of P&W by Loureiro Engineering Associates (LEA).

Prior to this letter, I had spoken with George Andrews of LEA regarding this issue. Based on my review of the June 27, 2002 request, the modification proposed by P&W is consistent with my discussion with LEA. I do, however, have 1 comment on disposition of the decontamination wastewaters (See Addendum to Work Plan, page 1, paragraph 6). Additional details are necessary to clarify how the decontamination wastewaters will be handled. I did leave Mr. Andrews a voice-mail message this morning regarding this item and indicated that he could e-mail me directly with the additional information. If I receive anything or hear from Mr. Andrews, I will let you know.

Please call me at 8-1527 if you have any questions.
